Sustainable Investment Philosophy

At One Four Nine Portfolio Management (OFNPM) we fundamentally believe that investors are loss averse, not risk averse. Our investment philosophy is built around 3 principles

1. Preserve Capital

We wish to avoid the permanent loss of capital

2. Grow Wealth

We measure our success by growing capital faster than the rate of inflation

3. Manage Risk

We build efficient portfolios. For a given level of risk we seek to maximise return

We view sustainability as the responsible use of financial and natural resources in a way that enhances long-term social, environmental and economic well-being. When approaching Sustainable Investing we are focused on both what a company does and how it does what it does, as this provides a holistic approach to sustainability. This combination of the how and the what allows us to avoid harm whilst championing firms that are already doing good and actively engaging with others to do better.

Each managed portfolio aims to achieve it's objectives through investment in a global multi-asset portfolio consisting of equities, bond, commercial property and other asset classes. Exposure is primarily gained through collective investment schemes (unit trusts, OEEICS, investment trusts, ETFs).

Portfolio Manager

Rosie Cook is a Portfolio Manager at One Four Nine Portfolio Management. Having spent her career to date within financial services, Rosie has a passion for investment management, specifically in the sustainability space and was a key architect of OFNPM's Sustainable MPS range. Rosie has a BSc in Economics and Politics from the University of Exeter and is a Chartered Financial Analyst.

Key Information

Launch Date: 31 March 2022 | Benchmark: UK CPI Plus 4% | Base Currency: Sterling | Yield: 0.90%

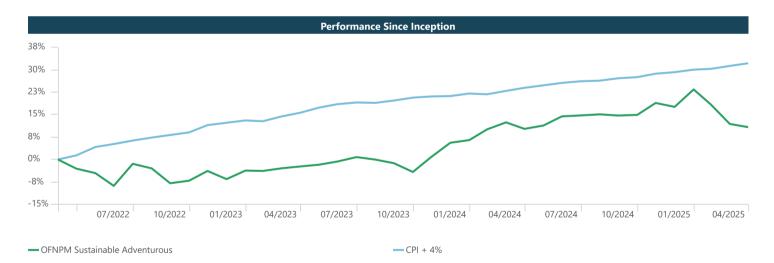

One Four Nine Fee: 0.20% | Underlying Fund Fees: 0.71% | Transaction Fees: 0.09% | Total Charges: 1.0%

Adventurous Risk Profile and Objective

The Adventurous Portfolio aims to deliver a return of UK CPI plus 4% over rolling 5 years.

The Adventurous Portfolio is appropriate for an investor who is comfortable with a high volatility of returns and having up to around 100% of their portfolio in equities. You are comfortable that in 1 year out of 20 your portfolio could fall by more than 25% in any one year. Volatility is typically between 12% and 20% and investors should have a minimum time horizon of 5 years, ideally longer

The historic information is not representative of individual client account performance and is provided for illustrative purposes only. Performance is calculated assuming all income is reinvested and is net of underlying charges and One Four Nine's investment management charge, but gross of platform charges and any ongoing advice fees. Deduction of these will have the result of reducing the illustrated performance. Please refer to your Adviser for details.

Trailing Returns					Annualised Returns

*In the above chart, the data for 2022 is from launch of the model on 31 March 2022 until

One Four Nine portfolios are managed on a discretionary basis therefore the investment manager may make changes to the investments held without notice. Investors are agreeing to the investment model as recommended by an Adviser and may not be investing into the specific assets included in this factsheet. The factsheet will be updated and made available as soon as is practicable following a change made by the investment mangaer. Past performance is not a guide to future performance. The value of investments and the income from them may go down as well as up, so you may not get back the amount you invest. The return may increase or decrease as a result of currency fluctuations.

One Four Nine Models are benchmarked against UK CPI and any other benchmark has been displayed for comparative purposes only and is not a benchmark for the Models. Performance figures are net of underlying fund fees and include One Four Nine Portolio Management's Fee of 0.20%. All model portfolio performance data is sourced from One Four Nine Portfolio Management. All other data is from Bloomberg and Morningstar Direct.

Consideration should be given to whether it is felt that the outcome of any risk assessment is accurate and advice should be sought for factors such as investment objectives, the investment term, attitude to risk, capacity for investment loss and the elvel of inflation. This illustrative document is intended for investors where advice has been given by Advisers. Models are prepared in accordance with the stated objective and not client circumstances. Information from given sources is taken to be reliable and accurate, which One Four Nine Portfolio Management Limited cannot warrant for accuracy or completeness.

This document does not constitute personal advice. If you are in doubt as to the suitability of an investment please contact your Adviser.
